## PROFILE

Fullstack Developer with 7+ years of experience in frontend architecture and scalable backend development. Experience in system modernization, legacy migrations, and building mission-critical platforms in production.

## WORK EXPERIENCE

**Municipalidad de La Costa** 2016 - PRESENT  
Fullstack Developer / Frontend Lead

- Progressed from technical IT support to Fullstack Developer within the municipal technology department. Led frontend architecture and modernization initiatives, contributing to large-scale public systems serving multiple departments.
- Migrated the Municipal Integrated System (SIM) from legacy PHP to Vue.js and Vuetify architecture.
- Appointed Frontend Lead for SIM, defining architecture and UI standards.
- Led full frontend migration of the municipal public services platform (taxes, properties, vehicles, permits, cemetery, health registry).
- Expanded responsibilities to backend development within SIM ecosystem.
- Architected and led backend development of the Electoral Operations Platform (2025).

**WaveIT** 2022 - 2023  
Frontend Developer

- Worked on frontend development for internal and client-facing web systems using Vue.js.
- Built reusable UI components and scalable frontend structures
- Collaborated with backend teams to integrate REST APIs

## EDUCATION

**Computer technician** 2007 - 2015  
Raúl Scalabrini Ortiz | Santa Teresita, Buenos Aires
